Summary

Software Developer who passionate about rapidly developing a prototype, as well as loves the process of going from an initial idea to a profitable product. Most recently developed a RESTful service using Django and Angular2 on Google Cloud Platform. I'm a big fan of cutting-edge technologies in the future, like artificial intelligence and blockchain.

Work Experience

Inetcop Corp.

Seoul, S.Korea

SOFTWARE ENGINEER & SERVING A MANDATORY MILITARY SERVICE (전문연구요원)

2017. 03 - PRESENT
